

Happy Honey Jars

This year we are putting individual honey jars on our Rosh HaShana table. The kids are excited to decorate their own small honey jars, and there is something to do for every age from 2-10. So get creative with your honey!

Materials:

- Small honey dishes or jars
- Bee stickers
- Glass Paint
- Ribbons
- Glue gun or white glue
- Scissors

Directions:

Decide which materials you are using on your honey dish. I found some great apple ribbon so I glue gunned that on to one of my honey dishes. Any ribbon will do though. I also found some wooden bees that I glued on to one dish along with some apple stickers. This craft is a slam dunk so you can feel free to be as creative as possible with it.
