

Maze Magic: Kedoshim

This week we are taught how to be a holy nation. God believes that just as He is holy, we should strive for holiness as well. One commandment that we learn about is focused on kindness and generosity to the poor. When you are ploughing your field, any part of your harvest that falls to the ground and the corners of your field must be left untouched. The poor of the nation are then free to collect that harvest to feed themselves.

Help the poor man find his way to the crops!
